

Dear Search Committee Members,

I am writing this letter to strongly recommend Mr. Biloliddin Farkhodov for acceptance into your program.

I am an Assistant Professor and the Co-Director of the Cybercrime Interdisciplinary Behavioral Research Laboratory (CIBR) at the University of South Florida. As such, I oversee several projects and dozens of students. Biloliddin was assigned to one of these projects. During our first meeting, I distinctly recall being impressed by Biloliddin's intellect and ability to discuss the various facets of cybersecurity. In fact, I was under the assumption that he was an advanced graduate student and asked when he planned to finish his doctorate. I was shocked to find that he was a new undergraduate student.

As Biloliddin's direct supervisor, I was continuously impressed by his ability to develop innovate solutions to solve complex issues. He is extremely technically savvy but can also relay information in an accessible manner. This is a rare talent possessed only by industry leaders, which Biloliddin will surely become if given the opportunity to reach his full potential.

For these reasons, I am honored to write this recommendation on Biloliddin's behalf and would gladly accept him into my institution if given the same opportunity.

Please contact me via email if you have any questions concerning Mr. Biloliddin Farkhodov or this letter of recommendation: cjhowell@usf.edu.

Regards,

Christian Howell
